

Retro Robot

BY SKY CAPTAIN

INSTAGRAM @SKYCAPTAIN_USA

This Retro Robot was inspired by Robbie the Robot from Forbidden Planet and “The Robot” from the original Lost in Space. This was one of my early attempts at designing BrickHeadz. I wanted to push the boundaries of the blocky shape and see if I could design a more rounded character while keeping the BrickHeadz dimensions.

The final result is slightly smaller than a regular BrickHeadz character, mostly due to a smaller head. I am not even sure if it qualifies as BrickHeadz anymore. Either way it is a fun little robot. I am still especially proud of the “brain” design and how well it fits under the clear dome.

**Happy Building,
Sky Captain**
